Customisation

We offer a wide range of capabilities across our production lines.

We can adjust and customise every element of your bar or functional powder, including flavour, protein content and sugar content, to match your exact requirements. We also have the ability to create plant-based bars and powders, ensuring the same quality and consistency across alternative formulations.

Lifestage Nutrition

Lifestage nutrition products are designed to help promote, maintain, or regain balance in overall health. Each formulation delivers essential nutrients tailored to the unique needs of different life stages, supporting long-term wellbeing and specific lifestyle goals.

Our Product Range

- Pediatric Shake
- Kids 10+ Shake
- Adult Vitality Shake
- Elderly Shake
- Gluco Control Shake
- Collagen Shake
- Beauty Shake
- Woman Vitality Shake
- Maternal Supplement Shake

Weight Management

Weight Management products deliver essential nutrients while keeping calories low, supporting both weight loss and long-term weight control. They offer a convenient, easy-to-use solution for individuals committed to achieving and maintaining a healthy, balanced lifestyle.

Our Product Range

- Meal Replacement Shake
- Meal Shake
- Meal Bar
- Low-Calorie Snack
- GLP-1 Support

Packaging Capabilities

We offer a wide range of packaging solutions, from single-serve stick packs to multi-serve doypacks and tubs, allowing us to tailor products to your desired format, portion size, and market positioning.

In addition, we can develop products that meet strict nutritional standards, including NutriScore A and Non-HFSS compliance, giving you the flexibility to innovate without compromising on health or regulation.

Global partner for sports nutrition & lifestage nutrition.

More than 100 years of experience in developing and producing superior tasting powders & protein bars for established international brands and retailers, according to the highest quality standards and with responsible sourcing.
